

## ACCIDENT FUND INSURANCE COMPANY OF AMERICA BREAKS GROUND ON NEW CORPORATE HEADQUARTERS SITE!

Because of your recent interest in The Stadium District, Marketplace or Ball Park North Developments, we wanted to make you aware that The Accident Fund Insurance Company of America held its groundbreaking ceremony at the site of its New Corporate Headquarters in downtown Lansing on October 9<sup>th</sup>. They are renovating the former Board of Water and Light Power Plant facility.

As you can see by the picture below, the former power plant, which has been an iconic landmark in downtown Lansing for many years, will be transformed by the \$170 Million investment to the site.

The Accident Fund anticipates taking occupancy of their new building by mid 2011. They have 600 current employees; however, their renovation efforts will allow additional growth of up to 1,200 employees.

**This site is less than 600 yards from the Stadium District and only 100 yards from our proposed Marketplace and Ball Park North Developments.**

Please feel free to contact us for more information relative to our current and upcoming developments or visit:
