Pool Safety

- Assign an adult to supervise children in and around the swimming pool and spa. This is needed whether there is one parent or guardian present or numerous adults present such as during a family event or party.
- Maintain constant eye-to-eye supervision with children in and around the swimming pool and spa.
- Remove children from the swimming pool and spa area for any distraction such as a telephone call, use of restroom, etc.
- Issue the adult supervisor an item such as a whistle, bracelet, etc. to reinforce which adult is in charge of the safety of the children.
- Floaters or other inflatable flotation devices are not life jackets and should never be substituted for adult supervision.
- Maintain a clear view (no trees, bushes or other obstacles) from the home to the swimming pool and spa.
- Ensure any adult responsible for the children know the emergency services telephone number and also your location address in the event emergency personnel are needed to be called to the scene.
